Springer International

Oecologia

Derived from "*Zeitschrift für Morphologie und Ökologie der Tiere*", *Oecologia* was founded in 1968, Volumes (1968–1982), and edited by H. Remmert. As of Volume 53 (1982) the journal has been edited by both H. Remmert and E.-D. Schulze.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $0.20 per page, or a minimum of US $1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0029-8549, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

Akimoto S: Competition and niche relationships among *Eriosoma* aphids occurring on the Japanese elm 44

Andersen AN: Dispersal distance as a benefit of myrmecochory 507

Anderson J → Whitford WG et al 8

Andrews RH → Chilton NB 146

Atkinson CJ, Winner WE, Mooney HA: Gas exchange and SO_2 fumigation studies with irrigated and unirrigated field grown *Diplacus aurantiacus* and *Heteromeles arbutifolia* 386

Azocar A, Rada F, Goldstein G: Freezing tolerance in *Draba chionophila*, a 'miniature' caulescent rosette species 156

Baldwin IT: Short-term damage-induced increases in tobacco alkaloids protect plants 367

Baldwin IT, Schultz JC: Phylogeny and the patterns of leaf phenolics in gap- and forest-adapted *Piper* and *Miconia* understory shrubs 105

Batanouny KH, Stichler W, Ziegler H: Photosynthetic pathways, distribution, and ecological characteristics of grass species in Egypt 539

Baughman JF, Murphy DD, Ehrlich PR: Population structure of a hilltopping butterfly 593

Bazzaz FA → Schmid B et al 459, 465

Beattie AJ → Hull DA 153

Berven KA, Chadra BG: The relationship among egg size, density and food level on larval development in the wood frog (*Rana sylvatica*) 67

Blondel J, Farré H: The convergent trajectories of bird communities along ecological successions in european forests 83

Blower SM, Roughgarden J: Parasitic castration: host species preferences, size-selectivity and spatial heterogeneity 512

Boer PJ den: Density dependence and the stabilization of animal numbers. 3. The winter moth reconsidered 161

Bongers F → Popma J 625

Bosman AL, Hockey PAR: Life-history patterns of populations of the limpet *Patella granularis*: the dominant roles of food supply and mortality rate 412

Bowers MD → Stamp NE 619

Bowman WD, Strain BR: Response to long- and short-term salinity in populations of the C_4 nonhalophyte *Andropogon glomeratus* Walter B.S.P. 73

Bowman WD, Strain BR: Physiological responses in two populations of *Andropogon glomeratus* Walter B.S.P. to short-term salinity 78

Bozinovic F, Medel RG: Body size, energetic and foraging mode of raptors in central Chile. An inference 456

Bozinovic F, Rosenmann M: Energetics and food requirements of the female snake *Phillodryas chamissonis* during the breeding season 282

Brower LP → Glendinning JI et al 222

Brown BJ, Ewel JJ: Responses to defoliation of species-rich and monospecific tropical plant communities 12

Brown KM, Quinn JF: The effect of wave action on growth in three species of intertidal gastropods 420

Brown M, Dinsmore JJ: Habitat islands and the equilibrium theory of island biogeography: testing some predictions 426

Bryant JP → Cooper SM et al 336

Bultman TL, White JF: "Pollination" of a fungus by a fly 317

Burdon JJ → Jarosz AM 278

Burgess KH → Schmid B et al 459, 465

Caldwell MM → Eissenstat DM 1

Case TJ → Ryti RT 303

Chadra BG → Berven KA 67

Chilton NB, Andrews RH: Mating behaviour and parapatry in two species of Australian reptile tick 146

Chu C → Mooney HA et al 502

Clark DA → Oberbauer SF et al 207

Clark DB → Oberbauer SF et al 207

Coen LD: Herbivory by crabs and the control of algal epibionts on Caribbean host corals 198

Collinge SK, Louda SM: Herbivory by leaf miners in response to experimental shading of a native crucifer 559

Comstock JP, Cooper TA, Ehleringer JR: Seasonal patterns of canopy development and carbon gain in nineteen warm desert shrub species 327

Cooper SM, Owen-Smith N, Bryant JP: Foliage acceptability to browsing ruminants in relation to seasonal changes in the leaf chemistry of wood plants in a South-African savanna 336

Cooper TA → Comstock JP et al 327

Crivelli AJ → Dupont F 587

Cunningham GL → Neufeld HS et al 54

Damme JMM van → Nooij MP de 535

Dinsmore JJ → Brown M 426

Dupont F, Crivelli AJ: Do parasites confer a disadvantage to hybrids? A case study of *Alburnus alburnus* × *Rutilus rubilio*, a natural hybrid of Lake Mikri Prespa, Northern Greece 587

Edwards PB: Field ecology of a brood-caring dung beetle *Kheper nigroaeneus* – habitat predictability and life history strategy 527

Ehleringer JR → Comstock JP et al 327

Ehrlich PR → Baughman JF et al 593

Eissenstat DM, Caldwell MM: Competitive ability is linked to rates of water extraction. A field study of two aridland tussock grasses 1

Ewel JJ → Brown BJ 12

Farré H → Blondel J 83

Farrell TM: Community stability: effects of limpet removal and reintroduction in a rocky intertidal community 190

Fenical W → Hay ME et al 246

Festa-Bianchet M: Seasonal range selection in bighorn sheep: conflicts between forage quality, forage quantity, and predator avoidance 580

Fiedler K, Maschwitz U: Functional analysis of the myrmecophilous relationships between ants (Hymenoptera: Formicidae) and lycaenids (Lepidoptera: Lycaenidae). II. Lycaenid larvae as trophobiotic partners of ants – a quantitative approach 204

Fletcher WJ: Intraspecific interactions between adults and juveniles of the subtidal limpet, *Patelloida mufria* 272

French DD: Some effects of changing soil chemistry on decomposition of plant litters and cellulose on a Scottish moor 608

Gaines MS → Johnson ML 405

Galis F, Jong PW de: Optimal foraging and ontogeny; food selection by *Haplochromis piceatus* 175

Ganeshaiah KN, Shaanker RU: Regulation of seed number and female incitation of mate competition by a pH-dependent proteinaceous inhibitor of pollen grain germination in *Leucaena leucocephala* 110

Ganter PF: The vectoring of cactophilic yeasts by *Drosophila* 400

Ganzhorn JU: Food partitioning among Malagasy primates 436

Garton EO → Hayward GD 253

Gebauer G, Rehder H, Wollenweber B: Nitrate, nitrate reduction and organic nitrogen in plants from different ecological and taxonomic groups of Central Europe 371

Gibbons J Whitfield → Semlitsch RD 321

Glendinning JI, Mejia AA, Brower LP: Behavioral and ecological interactions of foraging mice (*Peromyscus melanotis*) with overwintering monarch butterflies (*Danaus plexippus*) in México 222

Goldring Y → Neufeld HS et al 54

Goldstein G → Azocar A et al 156

Gordon DM: Nest-plugging: interference competition in desert ants (*Novomessor cockerelli* and *Pogonomyrmex barbatus*) 114

Gorham J → Mooney HA et al 502

Green TGA → Lange OL et al 494
Gulmon SL → Hobbs RJ et al 291
Gustafson K → Hay ME et al 233
Halle S: Avian predation upon a mixed community of common voles (*Microtus arvalis*) and wood mice (*Apodemus sylvaticus*) 451
Harper JL → Thompson L 343
Harrison SP → Quinn JF 132
